## Objective

---

Motivated and detail-oriented Computer Science student seeking an entry-level position or internship to apply my technical skills in programming, software development, and problem-solving. Eager to contribute to a dynamic team and gain hands-on experience in the tech industry

## Technical Skills

---

- Programming Languages: C, C++, Java, Python, HTML, CSS
- Technical Support: Troubleshooting PC hardware, printers, peripherals, and networking issues
- Network Management: TCP/IP, DNS
- Server & Cloud Technologies: Windows Server, Office 365, Azure
- Software Support: Installation, configuration, and maintenance of different softwares
- Soft Skills: Problem-Solving, Team Collaboration, Customer Service, Time Management, Adaptability

## Education

---

### Science Stream (Physics and Mathematics)

Class of 2020

VS Niketan Secondary School ♦ Kathmandu, Nepal

### Bachelors of Computer Science

Expected Graduation May 2025

Algoma University ♦ Brampton, Ontario

- Minor in Geography
- Relevant Courses: Data Structures, Assembly Language Programming, Artificial Intelligence, Software Engineering, Database Programming, Internet Tools, Techniques of Systems Analysis, Operating Systems, Linear Algebra, Discrete Mathematics and Calculus

## Experience

---

### Pizza Maker, Longos

July 2024 – Present

- Prepared pizzas with efficiency and attention to quality in a fast-paced environment.
- Collaborated with team members to maintain an organized and clean workspace.

### Floor Associate, Home Essentials

September 2022 – June 2024

- Conducted weekly, monthly, and yearly inventories to ensure accurate stock levels.
- Efficiently loaded and unloaded deliveries, maintaining organization in storage areas.
- Provided outstanding customer service, assisting shoppers with inquiries and locating items.

## Projects

---

### Financial Tracker Application (Oct 2024- Dec 2024)

- Developed a Java-based expense tracking application to help users manage their budgets and monitor subscriptions.
- Designed a user-friendly graphical interface (GUI) for seamless interaction.
- Optimized algorithm efficiency for real-time expense categorization and summary generation.

- Collaborated with a team of 5 using Agile methodologies to ensure smooth project completion.
